THE BAYONNE TELEGRAPH

A spectrogram illustrating the frequency spectrum of a signal over time. The vertical axis represents frequency, and the horizontal axis represents time. The plot shows several distinct frequency components that change over time, indicating a non-stationary signal.

Good idea! I'm glad you're here.

TECHNISCHE UNIVERSITÄT DARMSTADT

A spectrogram illustrating the frequency spectrum of a signal over time. The vertical axis represents frequency, and the horizontal axis represents time. The plot shows a complex waveform with multiple frequency components fluctuating over time.

THEY WOULD HAVE BEEN THE FIRST TO GET IT

42

The image is a black and white abstract graphic. It features a large, stylized letter 'E' in the center, constructed from numerous thin horizontal lines. The 'E' is oriented vertically, with its main stem extending downwards and its top bar extending horizontally to the right. To the left of the 'E', there is a series of parallel horizontal lines that slope upwards and to the right, creating a sense of perspective or a staircase effect. In the bottom right corner, there is a vertical column of horizontal lines that tapers down to a point, resembling a funnel or a stylized letter 'I'. The background consists of a grid of horizontal and vertical lines, with some lines being thicker than others, creating a textured, layered effect. The overall composition is minimalist and geometric.
